Wellness at their fingertips

Hearing health is connected to overall well-being, which is why we continue to pioneer new health and wellness features available to patients using the My Starkey app.

Balance Builder ALL NEW

Balance Builder is an **all-new feature** that helps patients proactively prevent falls through physical awareness exercises designed to bolster balance and stability.

Respiratory Rate monitoring INDUSTRY FIRST

Respiratory Rate, an **industry-first feature** allows patients to monitor their own respiratory rate—one of the four vital signs that help measure the body's most basic functions.

"I am so confident and completely aware of everything."

Gen AI: Say it, solve it

Leading the way in AI, we offer Gen AI features in the My Starkey app and Pro Fit software that open new paths to support you and your patients.

Gen AI Smart Assistant INDUSTRY FIRST

Gen AI Smart Assistant allows patients to get **hands-free help** using their voice. They can receive detailed answers to questions, switch programs, set reminders, and more.

TeleHear AI INDUSTRY FIRST

A world first—TeleHear AI allows hearing aid wearers to manage their own sound concerns. After listening to the patient's issue, the app feature **instantly creates a sound adjustment** for them, based on professional expertise.

AI Assist INDUSTRY FIRST

AI Assist answers your product-related questions by leveraging Gen AI and current Starkey content.

We are continuously innovating new features that can help you improve every patient's hearing journey and quality of life.

Making connectivity convenient

From public spaces to personal chats, Omega AI keeps patients connected with three all-new My Starkey features.

Auracast™ assistant ALL NEW

Patients can select and connect to Auracast broadcasts at airports, gyms, or public announcements, and stream high-quality, low-latency audio anywhere it's available.

Google Fast Pair™ ALL NEW

For Android users, Omega AI detects any nearby Bluetooth® device and connects with one tap—fast, simple, and smart.

Push-to-talk ALL NEW

Send quick voice messages to another My Starkey user with Push-to-talk. Perfect for on-the-go communication.

The My Starkey app helps support Bill's active lifestyle, allowing him to confidently travel and enjoy his favorite hobbies.

A new dimension in clarity and connectivity

We've engineered Omega AI with our industry-leading AI and **G3 Gen AI Neuro Processor**. The result: innovation designed to come closer to restoring the normal sense of hearing than any hearing technology before it.

Ask more from your fitting software

Now, with **Acoustic Model Optimization (AMO) 2.0**, Pro Fit is faster than ever before. AMO 2.0 leverages the feedback cancellation initialization signal and in-situ measurements to estimate the acoustic coupling characteristics when the hearing aid or receiver is placed in the ear.

When used with Best Fit, AMO 2.0 **improves first-fit accuracy** and reduces the manual adjustments needed to match targets.
